This is an important document. It represents your license from Estima to use the software described below. You should store this in a safe place for record keeping, software re-installation and license upgrade purposes.

Date:	date
Licensed Software:	WinRATS
Licensee:	xxxxxx
License Type:	Multiple User/Network
User Limit:	nn
Serial Number:	xxxxxx
License Term:	Perpetual

**Multiple User/Network License.** This is a multiple user/network license. You (the Licensee) may (a) install this on the number of computers indicated by the User Limit, solely for use by your employees (and your students if you are an institution of higher learning), or (b) install this on a single local area network provided the number of simultaneous users is limited to the User Limit. If the User Limit is “Unlimited”, you may do both.

As this is a perpetual license, you are responsible for seeing that the software is removed from computers installed under option (a) when the computer no longer is in the possession of an employee or student. Should there be users (such as students) for whom enforcement of this would be difficult, you can obtain install disks for the software from Estima that are time-limited. Copies of the program installed with these would still count against your User Limit, but only for the time during which the program would be activated.

### Limited Warranties:

1. Estima does not warrant that the program will meet your requirements, or that operation of the program will be uninterrupted or error-free. Estima, however, warrants the media on which the program is furnished to be free from defects in materials and workmanship under normal use for a period of ninety(90) days from the date of delivery to you, as evidenced by a copy of your receipt. Your exclusive remedy for breach of this warranty shall be the replacement (without charge to you) of a disk not meeting Estima’s warranty.

2. Estima warrants that the software does not infringe the rights of any other person or entity. Your exclusive remedy for breach of this warranty is whichever one of the following Estima selects: (a) modify the software so as to no longer be infringing; (b) replace the software with non-infringing software; or (c) upon return of the software, refund your license fee.

Estima makes no other warranties, either express or implied, and Estima shall not be liable for implied warranties of merchantability and fitness for a particular purpose, nor for the special, incidental, or consequential damages such as loss or profits or inability to use the software.

Some states do not allow the exclusion or limitation of implied warranties or limitation of liability for damages, so the above limitation or exclusion may not apply to you.

**Governing Law.** This license is governed by the laws of the State of Illinois and the United States of America.
