Update Subscriptions

Our update subscription program provides an easy and cost-effective way to stay current with new releases of RATS. With a subscription, you will automatically receive all updates to RATS, up to and including Version 9.0, shipped to you on CD ROM.

The prices for users who already have Version 8 are \$150 per license for RATS, or \$175 per license for RATS Professional.

If you have Version 7.3 or earlier, please see our Update Order Form, which you can use to order both an update to Version 8 and an update subscription (or order online).

Note: These prices are for single-user licenses only. We do offer an annual subscription program for institutions with multi-user licenses or large installations of single-user licenses. Please contact Estima for details.
